

My name is Crystal Hansen and I have been a Licensed Specialist in School Psychology for thirteen years. I have had the opportunity to work in smaller, rural districts and a large, urban district. I am a past Lonestar LEND trainee (2014-2015). Through my opportunity with LEND I supported the implementation of a family resource fair. For the past three years I have been a volunteer with a non-profit that focuses on international community outreach. As an Area Representative I hope to be a voice and liaison for LSSPs in the area. School psychology is a dynamic field. I would like to support the positive service that TASP provides to our field.
