

I am a Texas native living in San Antonio for over 20 years, and have worked as a Licensed Specialist in School Psychology since 2008. Prior to that, I worked as a social worker for 8 years in a variety of settings, which include helping victims of domestic violence and children in the foster care system. I graduated from the Texas State School Psychology program with a Master of Arts in School Psychology in 2008. I completed my internship in Floresville I.S.D., and worked for the district for 5 years. Currently, I am employed with East Central I.S.D. in San Antonio, and have worked in this district that I love for 4 years. I am based at the High School campus, though I have worked with all age groups throughout my professional career. I am lucky enough to be married to my very best friend, and have two beautiful boys, ages 11 and 3. During my free time, I enjoy going to the beach with my family and friends whenever I can get away.

I have found much value and reward in working as an L.S.S.P, and wish to take the next step in my involvement in this unique profession. I want to acquire as much knowledge as I can in order to better serve as an L.S.S.P. I wish to learn more about legislative issues that affect our profession, use my strength as a good communicator to advocate for our profession, and speak for other L.S.S.Ps who also care about the profession and need a voice. I respectfully request your consideration to be on the TASP board as Area V Representative. Because of my passion and drive to service the profession to the best of my abilities, I believe I would be an effective voice for L.S.S.P.s in my area, and will work hard to contribute to the improvement of our valuable profession. Thank you for your consideration!
