

Helping Transgender and Gender Diverse Students Succeed At School And At Home

Todd A. Savage, Ph.D., NCSP

Immediate Past President, National Association of School Psychologists

Texas Association of School Psychologists Fall Conference

October 21, 2016

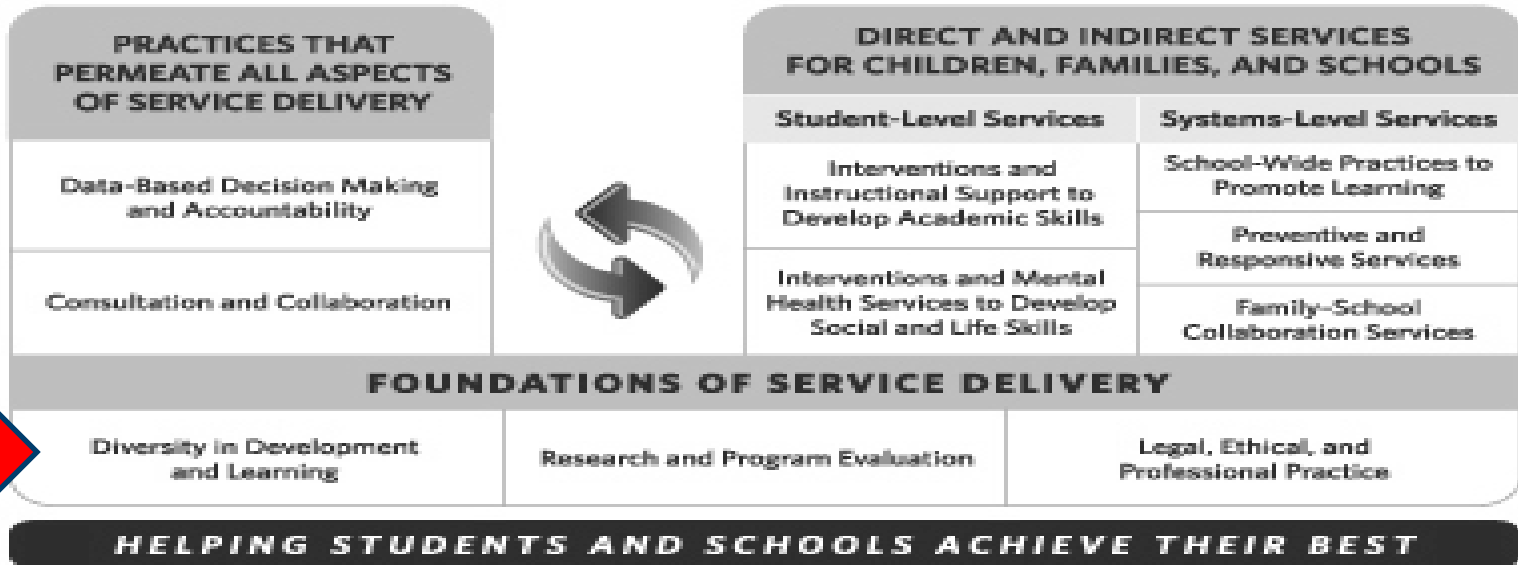

Session Objectives

- To heighten the participants' awareness of definitional and other issues related to transgender gender identity as they pertain to school and to home milieus;
- To aid participants to begin to construct a knowledge base about the various experiences and challenges faced by transgender students at home and school, as well as how participants can address these matters;
- To provide an opportunity for participants to apply their new-found awareness and knowledge.

NASP Practice Model

NATIONAL ASSOCIATION OF SCHOOL PSYCHOLOGISTS

Model for Services by School Psychologists

NASP's Position Statements

Safe Schools for Transgender and Gender Diverse Students (2014)

“NASP supports efforts to ensure that schools are safe and inclusive learning environments for all students, family members, and school staff, including those who are transgender or gender diverse. NASP respects a person’s right to express gender identity, and the right to modify gender expression when necessary for individual well-being. In addition, NASP supports all students’ right to explore and question their gender identity....NASP acknowledges that having a transgender identity or being perceived as gender diverse are not disorders, and that efforts to change a person’s gender identity are ineffective, harmful, and discriminatory. NASP works to ensure that settings in which school psychologists work are safe and welcoming and provide equal opportunity to all persons regardless of actual or perceived characteristics, including gender, gender identity, gender expression, sexual orientation, and any other personal identity or distinguishing characteristics.”

Lesbian, Gay, Bisexual, Transgender, and Questioning Youth (2011)

“NASP believes that school psychologists are ethically obligated to ensure that all students have an equal opportunity for the development and expression of their personal identity in a school climate that is safe, accepting, and respectful of all persons and free from discrimination, harassment, violence, and abuse. To achieve this goal, education and advocacy must be used to reduce discrimination and harassment against LGBTQ youth by students and staff and promote positive social-emotional and educational development.”

Joint Resolution

- APA and NASP Joint Resolution on Gender and Sexual Orientation Diversity in Children and Adolescents in Schools (2014)
- K-12 schools should be places of safety and support for all students through the...
 - Promotion of safe and supportive school policies and legislation
 - Development of anti-bullying efforts that promote academic success and resiliency
 - Development of programs to increase school engagement
 - Promotion of cross-agency collaboration
 - Protection of the right to privacy surrounding identity
 - Collection of inclusive data ensuring student anonymity
 - Funding of research in these areas
 - Increases access to facilities and programs based on gender identity, not assigned gender

NEA's Position

- Teaching Strategies (<http://www.nea.org/tools/30420.htm>)
 - “NEA believes that a great public school is a fundamental right of every child - free from intimidation and harassment, and safe for all students, including those who identify as gay, lesbian, bisexual, and transgendered.”
 - “There is only one real issue for educators: We are responsible for our students' safety and education. We must ensure that everyone is given the opportunity to achieve and thrive.”

Think/Pair/Share

- What is your understanding of what it means to identify as ‘transgender’ or ‘gender diverse’?
- How is ‘gender identity’ distinct from ‘sexual orientation?’
- When do individuals become aware of their gender identity?

Definitions

- Sex
 - Think biology – Female/Male
- Gender
 - Social construction that is culturally-mediated – Girl/Woman, Boy/Man
- Gender Identity
 - Lived/defined by the individual
- Gender Expression
 - How people communicate their gender identity to others
- Gender Role
 - Culturally-mediated ways people live out gender – Feminine/Masculine
- Sexual Orientation
 - One's primary psychological, social, emotional, and erotic attractions to other people

Definitions (continued)

- Cisgender
 - Gender identity matches the sex and gender one was assigned at birth
- Transgender
 - Gender identity does not match the sex and gender one was assigned at birth
 - Consistent, persistent, insistent
- Gender Diverse
 - Broader category that captures the range of gender identities
- LGBPTIQQQA2S (LGBTQ+)
 - Confusion regarding sexual orientation and gender identity
 - Pan-sexuality versus bi-sexuality

Transbasics

Y

Facts

- Estimates vary as to the number of people in the U.S. who identify as transgender
 - 0.3% self-identified in a recent health study (Gates, 2011)
 - 1%-3% of students self-identified in a recent SF HS health survey (Shields, 2009)
 - TIME magazine (June 2014)
 - 0.5% of U.S. population (i.e., 1.5 million people) identifies as transgender
 - 9% of adults report having a family member or close friend who identifies as TG (vs. 65% who report having a family member or close friend who identifies as lesbian or gay)
 - Taken altogether, these numbers make the momentum for change slow
 - These numbers may be underestimates for a variety of reasons
- Cuts across ethnic, racial, and class lines

General Issues

- Not much known about home issues, though experiences may parallel what has been observed in the LGB community
- Transphobia in the general culture and society
- Medical and psychological issues/barriers
 - DSM
 - Transsexualism → Gender Identity Disorder → Gender Dysphoria (current)
 - Stringent rules/guidelines (i.e., Harry Benjamin Standards of Care; WPATH – World Professional Association for Transgender Health)
 - Lack of knowledge, experience, training, sensitivity
 - 41% of TG adults report having attempted suicide [vs. 4.6% of the general population and 10%-20% of the LGB population (National Gay and Lesbian Task Force, 2011)]

Transgender Youth

- 80% of TG-identified adults knew they were 'different' before leaving elementary school
- Less than 4% of TG-identified persons realized they were TG after the age of 18
- Average age of trans-spectrum self-realization: 7.9
- Average age of learning the 'words' to communicate feelings: 15.5
- Consistent, persistent, insistent
- Transitions pre-puberty are social in-nature; some persons make seek medical transitions around puberty or later

Hyun, Raff, & Trier (2012)

“She’s too young to
decide to be a girl!”

... Said no one ever
to the cisgender girl.

Scottie

When Do Kids Know They're Transgender? Younger Than You'd Think.

Allowing Transgender Youth To Transition Improves Their Mental Health, Study Finds

BY **ZACK FORD**  POSTED ON MARCH 10, 2015 AT 11:22 AM

School Issues

- Transphobia – Bullying, biased remarks, harassment
 - 38% report feeling unsafe at school because of climate
 - 35% report avoiding gender-specific spaces because of climate
 - >60% report avoiding EC activities and school functions
 - 56% heard negative gender expression remarks
 - 33% heard negative transgender-specific remarks
 - 56% heard negative gender expression remarks from adults
 - 55% verbally harassed in the past year
 - 23% physically harassed in the past year
 - 49% LGBT report cyberbullying secondary to SO or GI/GE in the past year
 - 57% LGBT did not report incidents
 - 62% who did report indicated school staff did nothing in response

[GLSEN 2013 National Climate Survey](#)

School Issues

- Discriminatory School Policies & Practices
 - 56% report experience anti-LGBT policies & practices
 - 28% report being disciplined for PDA
 - 18% prevented from attending a dance or function
 - 18% restricted from promoting GSA
 - 42% prevented from using declared name
 - 59% required to use restrooms and/or locker rooms based on GA
 - 32% prevented from wearing clothes considered inappropriate based on GA

[GLSEN 2013 National Climate Survey](#)

Effects of a Hostile Climate

- Three times more likely to have missed school in the past month
- Have lower GPAs than non-harassed peers
- Twice as likely to report not to pursue PSE
- Report higher levels of depression and lower levels of self-esteem
- Report higher rates of substance use/abuse and risk-taking behaviors

Legal & Policy Matters

- Title IX (Patsy Mink Equal Opportunity in Education Act, 2002)
 - U.S. Department of Education Office of Civil Rights considers gender identity and gender expression as protected classes under Title IX
 - The DOE-OCR and the U.S. DOJ have filed and won lawsuits in this regard
- Equal Access Act (1984)
 - Equal access to extracurricular activities – religious and secular – in public schools
- California's AB 1266 (2013)
 - A pupil must be permitted to participate in sex-segregated school programs and activities, including athletic teams and competitions, and use facilities consistent with his or her gender identity, irrespective of the gender listed on the pupil's records

Legal & Policy Matters

- FERPA
 - According to Lambda Legal, students (age 18+) and/or parents or legal guardians have the right to request that a school change the name and gender marker on one's records if they are incorrect, misleading, or violate one's privacy (34 C.F.R. section 99.7(a)(2)(ii))
- Section 504 of the Rehabilitation Act
 - Gender identity is not a disability in-and-of itself
 - Focus on disability in the 504 plan, not on gender identity
 - If the disability for which you are seeking accommodations centers on mental health sequelae associated with one's gender identity and that impacts one's education, it would be appropriate to develop a 504 plan in this situation
 - http://www.naesp.org/sites/default/files/Zirkel_MA15.pdf

Legal & Policy Matters (continued)

- Anti-bullying bills
 - [Safe and Supportive Minnesota Schools Act](#)
- High school athletic associations
 - As of September 10, 2015, 35 states have transgender-inclusive policies in place pertaining to participation in high school athletics
 - For more information, see [TRANS*ATHLETE K-12](#)
- Minnesota State High School League (December 2014)
 - http://www.mshsl.org/mshsl/news/transgender_policy.pdf
 - Takes effect for the 2015-2106 academic year
 - Allows participation in high school athletics of all students regardless of gender identity and gender expression
 - Each participating member school must determine the appropriate gender team for participants requesting transgender consideration

**A male wants to shower beside
your 14-year-old daughter.**

Are YOU ok with that?

On October 1st and 2nd, this week, the Minnesota State High School League (MSHSU) will consider their draft proposal requiring that transgendered athletes be allowed to participate in high school athletics according to their gender choice, rather than the gender listed on their birth certificate.

Under versions of this policy:

- Transgender males are allowed to play on girls' sports teams and transgender girls on boys' teams.
- Biological males might be allowed to shower, dress and share hotel accommodations with biological girls and vice versa.
- Privacy accommodations must be available upon request for transgender athletes; however, there is no privacy accommodation required for all other students.
- No safety provisions are included for physical disparities.
- "Transgender Sensitivity Training" is required for all students, teachers, counselors, coaches, staff, and parents at school district cost.
- This policy applies to all public and private schools in the League. There is NO exemption for religious schools.

ADVERTISEMENT

THE END OF GIRLS' SPORTS?

Her dreams of a scholarship shattered, your 14-year-old daughter just lost her position on an all-girl team to a **male**... and now she may have to shower with him.

Are you willing to let that happen?

The MN State High School League is considering a transgender athletic policy forcing almost 500 MN schools, including private and religious, to allow transgender students to choose their gender team, locker room, showers, bathroom facilities and hotel accommodations. Student bodily privacy, safety, dignity, and the future of athletics is at stake.

How To Be Supportive

- Personal reflection and professional development
- Policy development
 - Non-discrimination policies
 - Anti-harassment policies
 - Other school policies (e.g., field trips; restroom/locker room use; athletic teams)
- Advocacy
 - Acceptance
 - Gender non-specific spaces and safe zones (e.g., GSAs)

How To Be Supportive

- Psychological safety (adapted from Reeves & Brock, 2011)
 - Schools
 - School climate (respect, acceptance, valuing versus tolerance)
 - School connectedness
 - Mental health
 - Individual
 - Honoring the individual
 - Name and pronouns
 - Dress and other forms of gender expression
 - Privacy
 - Resiliency – internal and external
 - Intervention
 - Ongoing support

How To Be Supportive

- Education
 - Administration, faculty, and staff
 - Students
 - Families
 - Records
- Curriculum and Instruction
 - Inclusion of gender diverse persons in curriculum
 - Teaching to and through the cultural/identity lenses of students
- Collaboration
 - Home
 - Community agencies

Schools in Transition

Gender Spectrum (2015)

Wrap Up

- Transgender persons are a part of school communities at numerous levels;
- Transgender persons are vulnerable to discrimination and harassment at school, at home, and in the community, which may contribute to challenges in the various areas of their lives;
- Transgender persons are also resilient;
- School psychologists, other school-based mental health professionals, administrators, and teachers can and SHOULD support transgender persons in schools in multiple ways;
- Resources exist and are accumulating to assist school psychologists in their efforts to optimize the potential for success of all persons.
