Number indicates if it is an individual plan (1) or a Group (>1)

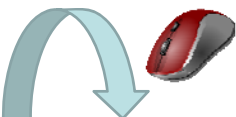

The person responsible for the logistics of the PM process.

The person who delivers the intervention. Could be anyone from the School system or an outside agency. If an outside agency, consider who will be the most appropriate person to serve as the Case Manager

[Create i-Group](#)

Number of i-Members	Case Manager	i-Teacher
5	Adams, Jane	Adams, Jane
12	Miller, John	Rogers, Chris
2	Jones, Michael	Williams, Jessica

Creating a new intervention plan

The diagram illustrates the process of creating a new intervention plan. A red mouse cursor is shown clicking the 'Create I-Plan' button in the 'i-PLANS' section of the interface. A blue arrow points from the 'Create I-Plan' button to a text box on the right.

i-PLANS

Create I-Plan Search

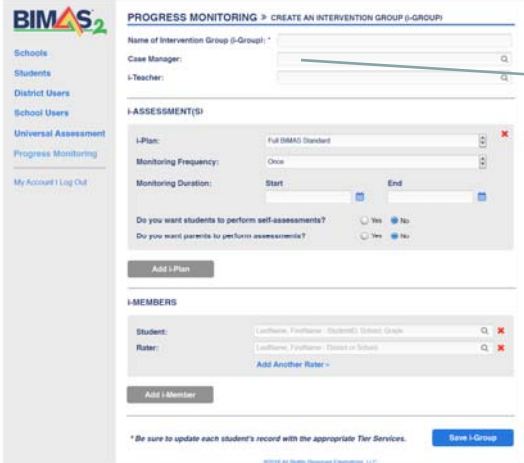

i-Plan Name

[Depression](#)

[Bullying](#)

[Attention](#)

Give your intervention plans as detailed of a name as possible

The screenshot shows the 'BIMS2' interface for creating an intervention group. The form includes fields for 'Name of Intervention Group (i-Group)', 'Case Manager', 'i-Teacher', and 'i-ASSESSMENT(S)'. The 'i-ASSESSMENT(S)' section has dropdowns for 'I-Plan' (set to 'Full BIMS2 Standard'), 'Monitoring Frequency' (set to 'Once'), and 'Monitoring Duration' (with 'Start' and 'End' date pickers). There are also checkboxes for 'Do you want students to perform self-assessments?' and 'Do you want parents to perform assessments?'. The 'i-MEMBERS' section has fields for 'Student' and 'Rater', each with a search icon and a red 'X' icon. There are 'Add i-Plan' and 'Add i-Member' buttons. At the bottom, there is a 'Save i-Group' button and a note: '* Be sure to update each student's record with the appropriate Tier Services.'.

Giving a proper name with details will help identify if this is an individual or group Intervention plan that can be replicated/used in the future

A case manager and the Interventionist (i-Teacher) are clearly identified. The role can be shared by one person.

- If the BIMAS Standard Form is selected, the Teacher normative data is used when scoring the i-Teacher ratings.

Assigning ONE or MORE students for Progress Monitoring into an i-PLAN

All students in the BIMAS-2 are assigned a Tier 1 level of Service.

The members of the intervention plan are added here.

The screenshot shows the 'i-MEMBERS' section of a software interface. It contains two identical forms for adding members to an intervention plan. Each form has three input fields: 'Student', 'Rater', and 'Rater'. The first form has 'Walters, Madison - 123456, Franklin Elementary, Grade 6' for Student, 'Smith, Andrea - District Staff' for Rater, and 'Rogers, Ashley - Franklin Elementary' for Rater. The second form has 'Ramos, Alex - 321654, Franklin Elementary, Grade 6' for Student, 'Smith, Andrea - District Staff' for Rater, and 'Andrews, Matt - Franklin Elementary' for Rater. Below each form is a blue link 'Add Another Rater >'. At the bottom of the section is a grey button 'Add i-Member'. Below the entire section is a blue button 'Save i-Group' and a note: '* Be sure to update each student's record with the appropriate Tier Services.' The footer shows '©2016 All Rights Reserved Edumetris, LLC.'

This is a smaller version of the screenshot above, showing the 'i-MEMBERS' section. An arrow points from the 'Save i-Group' button to a text box on the right.

- If this is a plan for an individual student, add the info and click save the i-Group.
- If this is a plan for a small group , click the Add i-Member and select the next student.

The raters are identified for each MEMBER of the I-PLAN

- This includes the i-Teacher and anyone else we identify to provide feedback on a student's behavior/Progress Monitoring Plan

If a BIMAS Flex option is desired

BIMAS 2

PROGRESS MONITORING > CREATE AN INTERVENTION PLAN (i-PLAN)

Name of Intervention Plan (i-Plan): *

Frequency: *

Select 1 Assessment Item (a maximum of 10 is recommended)

Behavioral Concerns - Conduct

- ☐ appeared angry
- ☐ engaged in risk taking behavior
- ☐ fought with others (verbally, physically, or both)
- ☐ lied or cheated
- ☐ lost teacher's anger when upset
- ☐ was aggressive (threatened or harmed others)
- ☐ was suspected of using alcohol and/or drugs
- ☐ was sent to an authority for discipline
- ☐ was suspected of smoking or chewing tobacco

Adaptive Skill - Social

- ☐ shared what he/she was thinking about
- ☐ spoke clearly with others
- ☐ maintained friendships
- ☐ appeared comfortable when meeting to others
- ☐ was generally friendly with others
- ☐ worked out problems with others

Behavioral Concerns - Resistant Affect

- ☐ appeared angry or hostile
- ☐ appeared depressed
- ☐ acted out or withdrawn
- ☐ was easily embarrassed or felt ashamed
- ☐ appeared anxious (nervous or nervous)
- ☐ expressed thoughts of hurting himself/herself
- ☐ was emotional or upset

Adaptive Skill - Academic Functioning

- ☐ followed directions
- ☐ increased testing grades or work
- ☐ worked up to teacher's academic potential
- ☐ was prepared for class
- ☐ was absent from school

Behavioral Concerns - Cognitive / Attention

- ☐ had trouble paying attention
- ☐ was impulsive
- ☐ had problems staying on task
- ☐ acted without thinking
- ☐ had trouble remembering
- ☐ had trouble with organizing and planning
- ☐ forgot

DISPLAY TABLE BY NUMBER OF STUDENTS

Step 3 – Collect Additional Information

- Validate & contextualize District/School/Grade/Class-level BIMAS data with other sources of data:

- ❑ state test performance
- ❑ standardized testing
- ❑ attendance
- ❑ office referrals
- ❑ demographic data

Boston Public Schools - CBHM

Tier 1 Essential Components *for behavior*

INSTRUCTION

PBIS is a framework for teaching students about behavioral expectations throughout the school building

SEL Curricula are instructional programs that teach students how to manage emotions, maintain positive relationships, and make responsible decisions.

Want to know more?

www.pbis.org
www.casel.org

ASSESSMENT

Universal Screening is completed for all students to help schools understand student strengths and needs.

Boston Public Schools use the following universal screening tools for behavior:

Grades K2-12: BIMAS
Grades K0 & K1: BESS

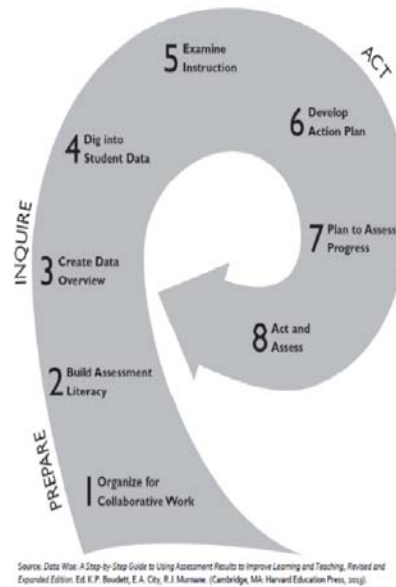

DATA BASED DECISION MAKING

Problem Solving Processes help school teams use screening and progress monitoring data to make decisions about core instructional programming

School teams should use a variety of data sources for problem solving. For example:

Universal Screening Data
Attendance Data
School Climate Data
Discipline Data

Problem Solving Process at Tier I

Step 4 – Develop Intervention & Monitoring Plan

- Research-based interventions reviewed & selected
- Plans should include:
 - a) clearly identified intervention targets;
 - b) baseline data to which subsequent data may be compared;
 - c) an analysis of the scope of the problem and conditions that influence the intervention target(s)

Step 4– (cont'd)

Develop Intervention & Monitoring Plan

Plans should include:

- d) specific intervention components selected based on that analysis;
- e) clear goals;
- f) clearly identified and valid techniques for monitoring progress;
- g) a timetable for evaluation

MTSS and BIMAS data

Tiers 2 & 3 (Targeted & Intensive Levels)

Layered Continuum of Supports

- Every student receives **Universal** supports
- Some students also receive **Targeted** supports
- Few students also receive **Intensive** supports

Who are the students in Tier II?

- **Membership**
 - Individual students
 - Small group of students
- **Targeted Interventions**
- **Progress Monitoring**
 - BIMAS standard form
 - BIMAS Flex items

Tier 2 & 3 Targeted/Intensive Levels

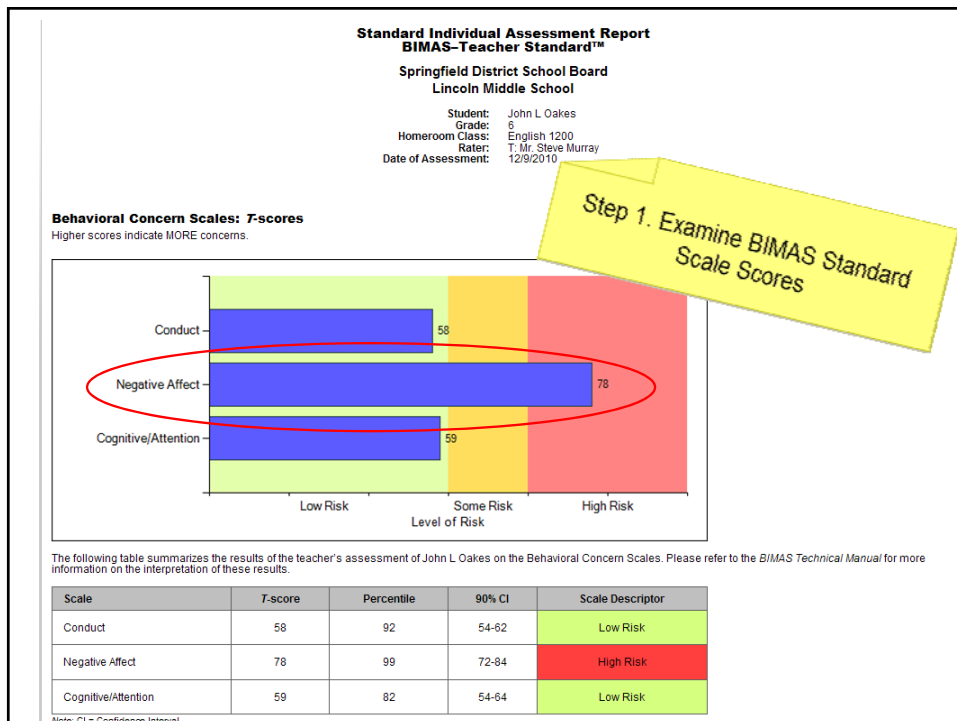

- Identify General Areas of Concern
- Examine Item-Level Responses
- Develop Intervention & Monitoring Plan
- Monitor Response of Intervention

Step 1: Identify General Areas of Concern (cont'd)
in a Classroom

- Need to know more details about a student? Just click on their name

Individual Evaluation Steps 1 & 2

- Identify General Areas of Concern.
- Examine Item-Level Responses

Step 2. Examine BIMAS Standard Item-Level Responses

Behavioral Concern Scales

The following section provides the item-level analyses for each Behavioral Concern Scale. Items identified as "Concern" are those that are considered when designing and monitoring individual intervention programs.

Item Score:

- 0 = **Never** (0 times or not observed)
- 1 = **Rarely** (Observed 1 - 2 times or to a minimum extent)
- 2 = **Sometimes** (Observed 3 - 4 times or to a moderate extent)
- 3 = **Often** (Observed 5 - 6 times or to a significant extent)
- 4 = **Very Often** (Observed 7 or more times or to an extreme extent)

Behavioral Concern Scales				
Higher scores indicate MORE concerns				
Conduct				
T-score 58	Percentile 92	90% CI 54-62	Scale Descriptor Low Risk	
Item			Item Score	Item Descriptor
21	lost temper		2	Concern
2	angry		1	Mild Concern
13	fought (verbally/physically/both)		1	Mild Concern
9	risky behavior(s)		0	No Concern
17	lied/cheated		0	No Concern
25	physical/verbal aggressiveness		0	No Concern
29	alcohol and/or drug use		0	No Concern
31	referred to disciplinary authority		0	No Concern
32	tobacco use		0	No Concern

- If student is on an IEP check to see if concerned behavior is part of plan.

Negative Affect				
T-score 78	Percentile 99	90% CI 72-84	Scale Descriptor High Risk	
Item			Item Score	Item Descriptor
12	sad/withdrawn		4	Concern
24	thoughts of hurting self		3	Concern
8	depressed		2	Concern
5	sleepy/tired		2	Mild Concern
27	emotional/easily upset		2	Mild Concern
20	anxious/worried/nervous		1	No Concern
16	embarrassed/ashamed		0	No Concern
Cognitive/Attention				
T-score 59	Percentile 82	90% CI 54-64	Scale Descriptor Low Risk	
Item			Item Score	Item Descriptor
10	problems staying on task		3	Concern
22	organization & planning problems		2	Mild Concern
28	fidgeted		2	Mild Concern
3	trouble paying attention		1	No Concern
18	trouble remembering		1	No Concern
6	impulsive		0	No Concern
14	acted without thinking		0	No Concern

Note: CI = Confidence Interval.

Adaptive Scales: Item Scores by Scale

The following section provides the item-level analyses for each of the Adaptive Scales. Items identified as Concern/Some Concern should be further explored and considered when designing and monitoring individual intervention programs. In addition, an examination of items identified as Positive may also aid in intervention program design.

Item Score:

- 0 = Never (0 times or not observed)
- 1 = Rarely (Observed 1 - 2 times or to a minimum extent)
- 2 = Sometimes (Observed 3 - 4 times or to a moderate extent)
- 3 = Often (Observed 5 - 6 times or to a significant extent)
- 4 = Very Often (Observed 7 or more times or to an extreme extent)

Adaptive Scales					
Higher scores indicate LESS concerns					
Social					
T-score	Percentile	90% CI	Scale Descriptor		
42	21	36-48	Typical		
Item				Item Score	Item Descriptor
15	comfortable with social interactions			2	Concern
1	shared thoughts			2	Mild Concern
11	maintained friendships			3	Fair
19	friendly			3	Fair
23	worked out problems with others			3	Fair
7	communicated clearly			4	Fair
Academic Functioning					
T-score	Percentile	90% CI	Scale Descriptor		
23	1	17-29	Concern		
Item				Item Score	Item Descriptor
33	prepared for classes			0	Concern
26	falling grades(R)			1	Concern
30	worked up to academic potential			1	Concern
34	absent from school(R)			1	Concern
4	followed directions			2	Mild Concern

Note: (R) = Reverse-scored Item. CI = Confidence Interval.

Individual Evaluation

Step 3

**COLLECT ADDITIONAL INFORMATION
AND COMPARE RESULTS ACROSS
RATERS**

Standard Individual Rater Comparative Report

Springfield District School Board
Lincoln Middle School

Student: John L. Oakes
Grade: 6
Homeroom Class: English 1200

Rater	Teacher 1	Parent 1	Self
Rater Name	Mr. Steve Murray	Peggy Oakes	John Oakes
Date of Assessment	12/09/2010	12/10/2010	12/10/2010

Behavioral Concern Scales: T-scores Comparison across Raters

Higher scores indicate MORE concerns

Step 3 - Compare Results Across Raters: Scale-Level

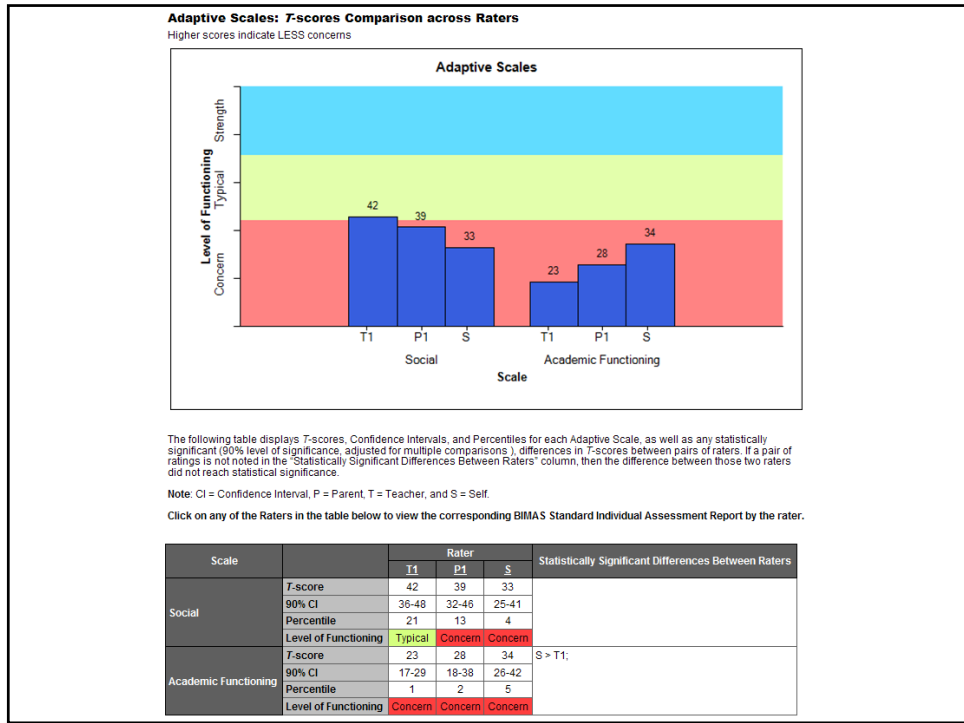

Determine which pairs of raters' scale scores are statistically different from one another

The following table displays T-scores, Confidence Intervals, and Percentiles for each scale. Differences in scores between pairs of raters, if statistically significant (90% level of significance, adjusted for multiple comparisons), are noted in the "Statistically Significant Differences Between Raters" column. If a pair of ratings is not noted in the "Statistically Significant Differences Between Raters" column, the difference between those two ratings did not reach statistical significance.

Note: CI = Confidence Interval, P = Parent, T = Teacher, and S = Self.

Click on any of the Raters in the table below to view the corresponding BLMAS Standard Individual Assessment Report by the rater.

Scale		Rater			Statistically Significant Differences Between Raters
		T1	P1	S	
Conduct	T-score	58	51	43	T1 > P1, S; P1 > S;
	90% CI	54-62	46-56	38-48	
	Percentile	92	55	25	
	Level of Risk	Low Risk	Low Risk	Low Risk	
Negative Affect	T-score	78	75	68	T1 > S;
	90% CI	72-84	67-83	62-74	
	Percentile	99	99	95	
	Level of Risk	High Risk	High Risk	Some Risk	
Cognitive/Attention	T-score	59	58	58	
	90% CI	54-64	52-64	51-65	
	Percentile	82	79	80	
	Level of Risk	Low Risk	Low Risk	Low Risk	

Compare Item-Responses Across Raters

Item No.	Item Stem	Rater's Item Raw Score		
		T1	P1	S
Negative Affect				
5	sleepy/tired	2 Mild Concern	4 Concern	3 Mild Concern
8	depressed	2 Concern	3 Concern	3 Concern
12	sad/withdrawn	4 Concern	3 Concern	2 Mild Concern
16	embarrassed/ashamed	0 No Concern	1 No Concern	2 Mild Concern
20	anxious/worried/nervous	1 No Concern	1 No Concern	1 No Concern
24	thoughts of hurting self	3 Concern	3 Concern	3 Concern
27	emotional/easily upset	2 Mild Concern	3 Concern	2 Mild Concern
Scale Score Scale Descriptor		T = 78 High Risk	T = 75 High Risk	T = 68 Some Risk

Adaptive Scales:

Higher scores indicate LESS concerns

The following table provides the item-level analysis for each of the Adaptive Scales. Items identified as Concern/Mild Concern by any of the raters should be further explored and considered when designing and monitoring individual intervention programs. In addition, an examination of items identified as Positive may also aid in intervention program design.

■ = Concern
■ = Mild Concern
■ = Fair
■ = Positive

Adaptive Scales				
Higher scores indicate LESS concerns				
Item No.	Item Stem	Rater's Item Raw Score		
		T1	P1	S
Social				
1	shared thoughts	2 Mild Concern	1 Concern	1 Concern
7	communicated clearly	4 Fair	4 Positive	3 Fair
11	maintained friendships	3 Fair	3 Fair	2 Concern
15	comfortable with social interactions	2 Concern	2 Mild Concern	0 Concern
19	friendly	3 Fair	3 Fair	2 Mild Concern
23	worked out problems with others	3 Fair	1 Concern	2 Fair
Scale Score		7 = 42 Typical	7 = 38 Concern	7 = 33 Concern
Scale Descriptor				
Item No.	Item Stem	Rater's Item Raw Score		
		T1	P1	S
Academic Functioning				
4	followed directions	2 Mild Concern	2 Mild Concern	3 Fair
26	failing grades(R)	3 Concern	3 Concern	3 Concern
30	worked up to academic potential	1 Concern	1 Concern	2 Mild Concern
33	prepared for classes	0 Concern	2 Mild Concern	2 Mild Concern
34	absent from school(R)	3 Concern	2 Concern	2 Mild Concern
Scale Score		7 = 23 Concern	7 = 28 Concern	7 = 24 Concern
Scale Descriptor				

(R) = Reverse-scored item.

(R) = Reverse-scored item.

High Risk/Concern levels
by all raters

Individual Evaluation

Step 4 –

Develop Intervention & Monitoring Plan

What are some of your Interventions/suggestions
for John?

Individual Evaluation

Step 4 – Develop Intervention & Monitoring Plan

Decisions from IEP Meeting—

Intervention Plan for John Oakes:

- Daily academic intervention services
- School psychologist's weekly support group—address negative affect issues
- Enlisted as peer tutor to read books to younger students 2x/week

Individual Evaluation

Step 4 – Develop Intervention & Monitoring Plan

How to Monitor Progress:

- Weekly **BIMAS Flex** assessment
- 5 Flex items selected based on 5 Standard items rated as **Concern**
- Determine **Target Score** & **Date Achieved By** for each Flex item
- **BIMAS Standard** follow-up in 10 weeks

Individual Evaluation

Step 5 – Progress Monitor John's behavior..

Generate an individual report showing
the data related to behaviors monitored

Flex Individual Progress Monitoring
BIMAS-Teacher Flex™
Springfield District School Board
Lincoln Middle School

Student: John L. Oakes
Grade: 9
Homeroom Class: English 1200
Rater: T. Mr. Steve Murray
Date of Flex Entry: 12/17/2010 through 2/11/11

Flex Item Scores: Scale-Level Comparisons Across Administrations
The following section provides the interpretive guidelines on the Flex items across all scales.

Item Score:
0 = Never (0 times or not observed)
1 = Rarely (Observed 1-2 or to a minimum extent)
2 = Sometimes (Observed 3-4 times or to a moderate extent)
3 = Often (Observed 5-6 times or to a significant extent)
4 = Very Often (Observed 7 or more times) or to an extreme extent
7 = Omitted Item
N/A = Item was not available on Flex forms on the selected date(s) of Flex entry

Item Descriptor Legend:
Negative (-) Items:
Higher item score
= Concern
= Mild Con
= No Conc
Positive (+) Items:
Higher item score
= Concern
= Mild Con
= Fair
= Positive

A) Behavioral Concern Scales
The following table provides the progress on Flex items for the specified dates of entries on selected Behavioral Concern Scale(s).

Negative Affect Scale

Standard Form Anchor Item:
8. appeared depressed

Flex Item:
had a negative self-image (-)

Date	12/17	12/24	12/31	01/07	01/14	01/21	01/28	02/04	02/11
Item Score	3	3	2	2	1	1	0	1	0

Flex Item:
took part in group activities (+)

Date	12/17	12/24	12/31	01/07	01/14	01/21	01/28	02/04	02/11
Item Score	1	2	3	3	3	3	3	3	3

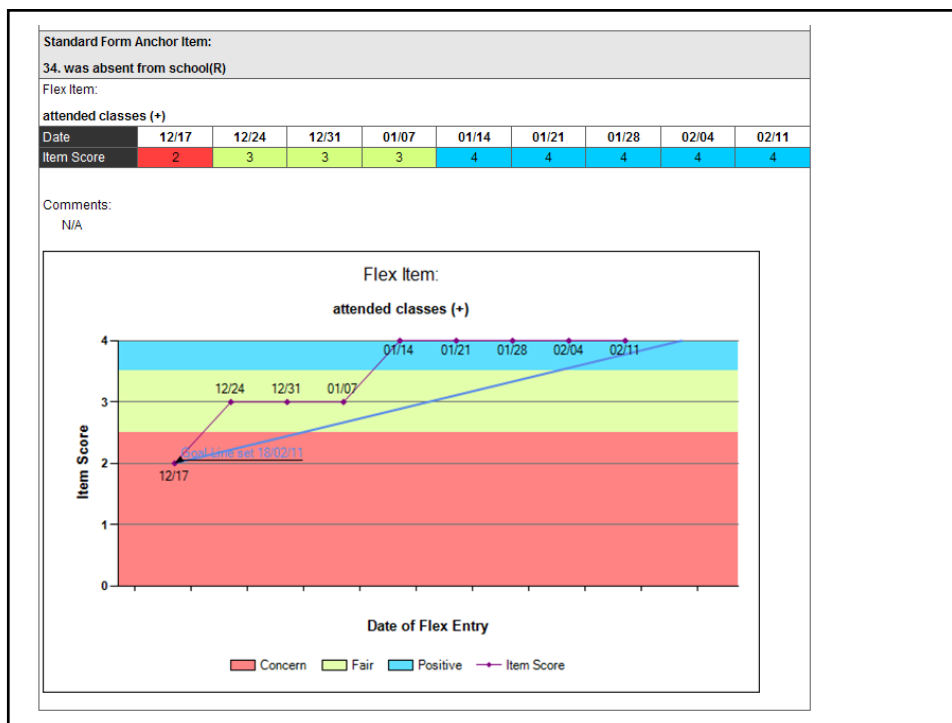

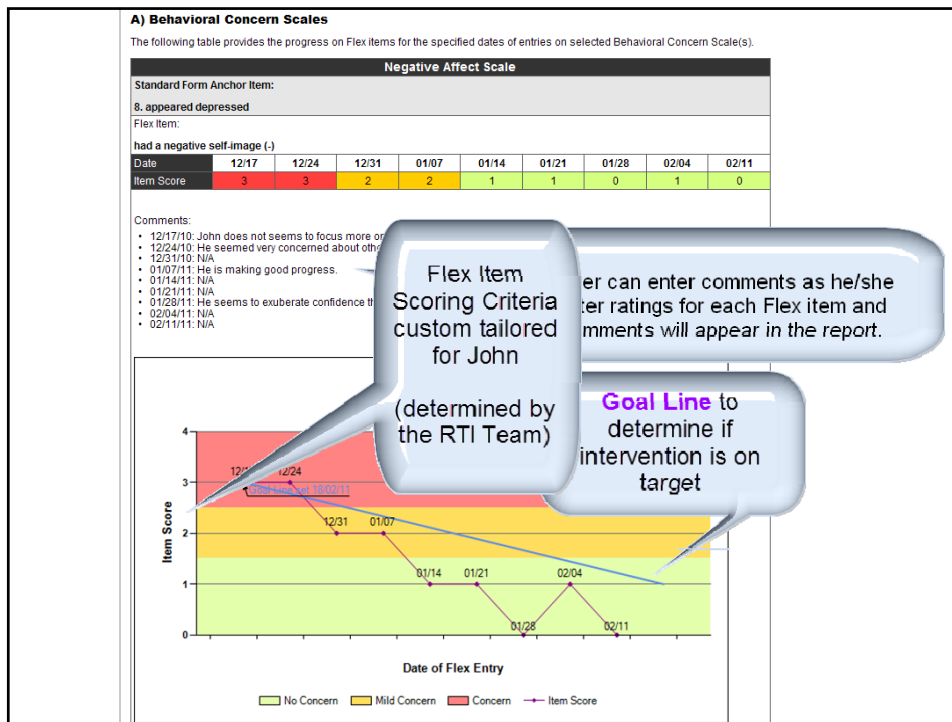

A) Behaviors
The following table provides the progress on Flex items for the specified dates of entries on selected Behavioral Concern Scale(s).

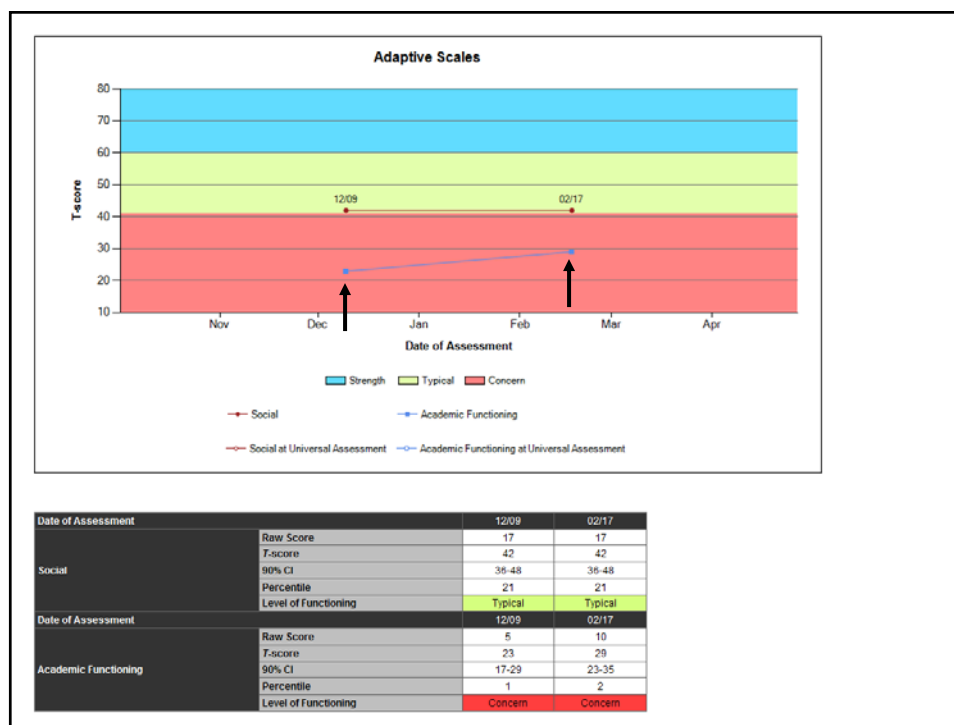

Standard Form Anchor Item:
24. expressed thoughts of hurting himself/herself

Flex Item:
expressed thoughts of self-harm (-)

Date	12/17	12/24	12/31	01/07	01/14	01/21	01/28	02/04	02/11
Item Score	3	2	1	1	1	0	0	0	0

Progress monitor specific behavioral goals with BIMAS Flex (for John: weekly)

Additional help and resources

If your school district would like additional help with the design, implementation and evaluation of Multi Tier Systems of Supports (MTSS), our team will be glad to assist you in the process.
